

Data Sentinel Denodo

INTEGRATED SOLUTION

Copperstone Connect

IMPLEMENTATION SERVICES

Now that you've taken the crucial step towards safeguarding your data with the purchase of Data Sentinel and Denodo's cutting-edge solution, it's time to ensure that your investment transforms into tangible results and success.

Our Implementation Services are here to guide you through the entire process, making sure that the solution is seamlessly integrated into your organization, maximizing its potential and value.

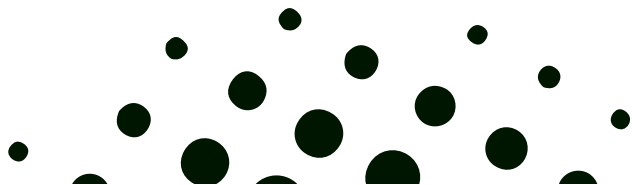

Our Commitment:

At Copperstone Connect our commitment to excellence drives every decision we make. When you partner with us you can expect that we will go the extra mile to ensure your project exceeds your expectations.

Why Copperstone Connect?

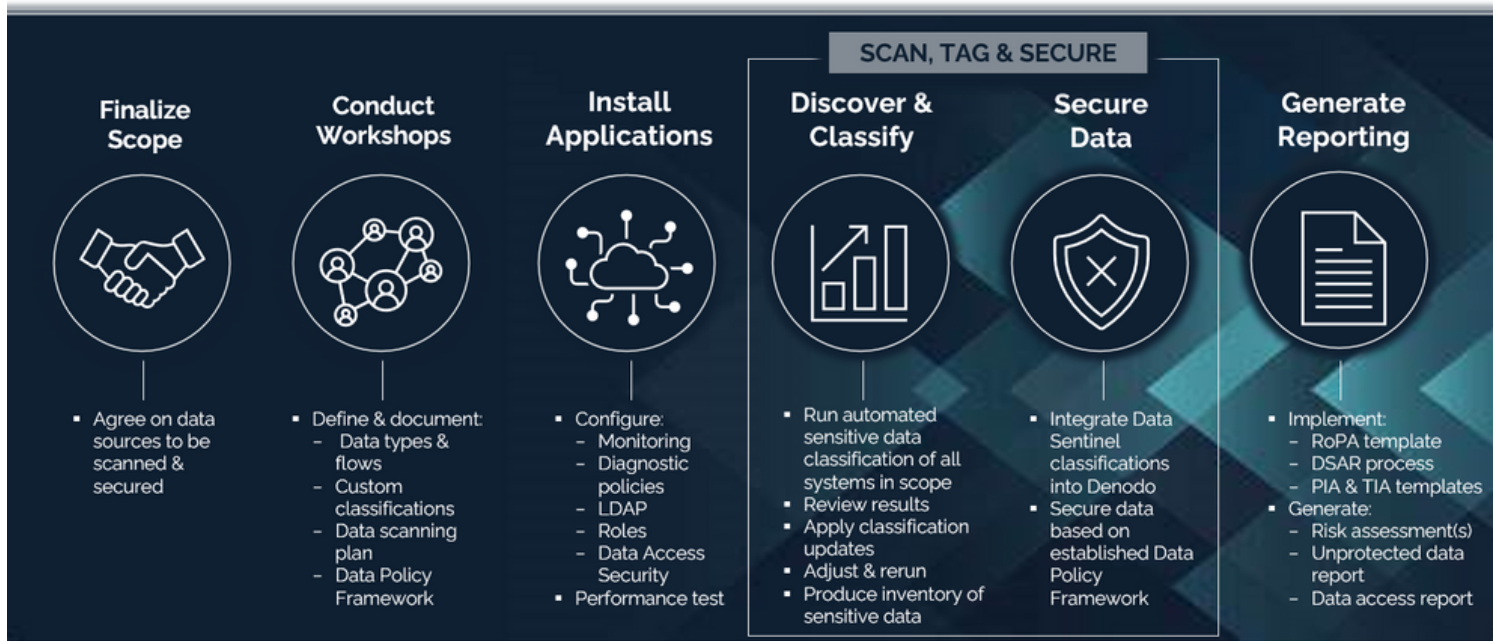

- 1 Strategic Partnerships:** We are proud to be the consulting partner that facilitated the collaboration between Data Sentinel and Denodo that led to the introduction of this innovative joint solution in the market. These invaluable partnerships have placed us in the enviable position to deliver seamless end-to-end implementation of the Integrated Data Sentinel/Denodo Platform Solution.
- 2 Seasoned Expertise:** Our team of Denodo Certified consultants bring a wealth of knowledge across various industries and workstreams. We've successfully tackled projects of all sizes and complexities and we're ready to navigate your unique challenges.
- 3 Tailored Solutions:** Our dual partnership enables us to craft highly customized solutions to align perfectly with your organization's goals. Our team of experts will work closely with you to understand your needs, design an integration strategy, and execute it flawlessly.
- 4 Unparalleled Efficiency:** our dual partnership allows us to streamline workflows, optimize resource allocation and keep everything on track to deliver your project on time and on budget.
- 5 Communication Excellence:** we believe that transparent and consistent communication is at the core of every successful project. You will always be in the loop with regular updates and project reports.
- 6 Established Methodology:** Whether it's Data Sentinel technology, Denodo technology, or both, Copperstone Connect has the expertise to seamlessly integrate into your ecosystem to help you identify and protect the Personal-Identifiable-Information (PII) of your customers and employees alike through our simple quickstart process.

Our Methodology

- 1. Discovery:** We start by working closely with your stakeholders to gather insights and define clear objectives.
- 2. Customized Planning:** With a solid understanding of your objectives, we define a detailed implementation plan.
- 3. Execution:** Our skilled team executes the plan, leveraging industry best practices to bring the Data Sentinel/Denodo integrated solution to life.
- 4. Testing and Quality Assurance:** Rigorous testing and quality checks are conducted to ensure that the solution meets your expectations.
- 5. Training and Knowledge Transfer:** We leave your team with the knowledge and skills needed to harness the full potential of the solution.

**Together with Data Sentinel and Denodo,
we have developed a quickstart process for the efficient
implementation of your solution.**
